## **LIST OF TABLES AND FIGURES**

<b>Figure 1: South African provincial HIV infection rates amongst 15-24 year olds</b> .....	1
<b>Table 1: Disability percentage by Municipality in uMgungundlovu District, KZN</b> .....	9
<b>Table 2: Summary of study participants</b> .....	13
<b>Table 3: Summary of results from youth with disabilities focus groups</b> .....	16
<b>Table 4: Current Gaps in Knowledge per Sub-District in uMgungundlovu Municipality</b> .....	32

## **ACKNOWLEDGEMENTS**

We would firstly like to gratefully acknowledge all the youth with disabilities, who took time out to participate in this study. Without your valuable input, this study would have not been possible. We would also like to thank all those Community Rehabilitation Facilitators and other key informants who took time out to help us identify participants to take part in the focus groups.

Finally we would like to thank Irish Aid who provided funding towards this study.
