

Disability Employment Forum

Dear Service provider

Thank you for considering / including people with disabilities in your learnership recruitment process.

We would like to suggest that you meet with us face to face to discuss the details around your training opportunity. Specifically it would be useful for us to know all the details the training has to offer such as:

- The number of people you would like to recruit
- The anticipated start and end date for your training intervention;
- The exact name and SAQA number of the programme;
- The level of the training intervention
- Where classroom training will take place
- Where your workplace experience will take place
- Are there any safety issues that people with disabilities should be aware of in terms of this training intervention?
- If there will be a stipend or travel allowance
- What age group ?
- Is it gender specific?
- Is it race specific?
- If there are exclusions on certain disabilities
- Entry level requirements
- Literacy/Language requirements
- Your Accreditation number

We hope and trust you can see your way clear to assist us in this process so that we in turn can assist you to reach your target.
